

SLEEP Editorial Board Disclosure Statement - Volume 36

As a provider that is accredited by the Accreditation Council for Continuing Medical Education (ACCME), the American Academy of Sleep Medicine must ensure fair balance, independence, objectivity, and scientific rigor in all its individually sponsored or jointly sponsored educational activities.

CME credit is offered for certain *SLEEP* articles. Therefore, all editors and authors must disclose any financial relationships with a commercial interest. A commercial interest is defined as any proprietary entity that produces health care goods, services or support, with the exemption of non-profit, government organizations and non-health care related companies. JCSM is a peer-reviewed journal; thus, the manuscripts submitted are judged against predetermined criteria to ensure the data supports the conclusions before they are accepted for presentation or publication.

Authors' disclosures are listed under the disclosure statement for each article.
